

Targeted Loan Discharge Programs: Auto SSA TPD

(Data pulled as of early August 2023, except where noted)

Notes

TPD counts are based on borrowers who are identified as eligible to receive a TPD through a match with SSA since August 2021 and excludes opt-outs. SSA matches occur quarterly. Approved borrower counts and associated dollars are reflected through the March data match since the opt-out period is ongoing for borrowers identified in the June 2023 match. TPD approved dollar amounts are estimates based on the approved borrowers' outstanding principal loan balance (and exclude outstanding interest). As a result, the actual discharged amount may exceed the approved amount.
